- Medical Evacuation Membership card

While this may seem like a lot of weight in your carry on it is very necessary! I have had items stolen from my checked bag on several occasions. [Binoculars, sunglasses, ammo, boots] I have also arrived without my checked bag, but at least I had my boots, binos and a set of hunting clothes and my sat phone and was able to scrounge enough gear to continue the hunt. Could you imagine having to hunt in someone else's boots, if you could find a size that fit you?
